

Nudge helps service-based businesses find and fix the repetitive, time-consuming work quietly costing them hours every week — **customer replies, scheduling, and reporting** — using practical AI and automation, with AI voice agents and predictive analytics available as you're ready to grow into them. No big IT project, no jargon: just a clear audit, a working fix, and a measurable result.

WHAT WE DO

01

Customer Service Automation

Handle repetitive inquiries, bookings, and follow-ups automatically — without losing the personal touch.

02

Scheduling & Operations

Automate scheduling, reminders, and routine coordination so nothing falls through the cracks.

03

Reporting & Data

Turn manual spreadsheet work into automatic reports you can trust and act on.

ADVANCED

AI Voice Agents

Custom-trained voice agents for lead intake, appointment booking, and FAQ handling — answering calls your team can't get to.

ADVANCED

Predictive Analytics Dashboards

Turn your existing data into forward-looking dashboards that flag trends and support decisions before problems hit.

HOW IT WORKS

1

Workflow Audit

A short, focused look at where you're losing the most time — plus what I'd fix first.

2

Implementation

Build and deploy the fix for one workflow, with training so your team actually uses it.

3

Ongoing Support

Optional monthly support to monitor, maintain, and expand what's working.

ENGAGEMENT & PRICING

Package	What's included	Price
Workflow Audit	Assessment + prioritized roadmap	\$2,000–\$5,000
Implementation	Build & deploy one workflow, with training	\$5,000–\$25,000
AI Voice Agent	Custom voice agent for booking, intake, or FAQs	\$3,000–\$12,000
Predictive Analytics Dashboard	Forecasting & decision-support dashboard build	\$5,000–\$15,000
Ongoing Support	Monitoring, updates, quarterly check-ins	\$500–\$3,000/mo
